Experience

Liberty Global

11 / 2009 - Present

Technical Producer

Assist producers, designers and local affiliates in realizing technical solutions for web products. Be the translator between developers and designers and assist in creating stunning looking websites that work on latest code standards.

For product management help realize interfaces and full web-pages by creating wireframes and providing technical knowledge in the creation process.

On the side I also do hotscripting issues (quickly modify and fix javascript, html and css issues as they arise), provide feedback on legacy sites and help out with video encoding for sites.

Senkoa

11 / 2008 - 10 / 2009

PHP Developer

Multiple roles concerning PHP such as helping clients install CMS packages (Drupal, Wordpress, ExpressionEngine and Joomla) and forum software

(vBulletin & phpBB). Coding custom components for linking multiple CMS systems and work from a single content repository (both db and cdn).

Senkoa Organisatie Advies

11 / 2008 - 10 / 2009
